These guidelines and tips are common-sense suggestions designed to promote machine efficiency and safety. Compiled from literature of leading experts in the field, they are believed to be reliable, and are offered as suggestions and illustrations to deal principally with common practices and conditions encountered in the use of different machines. The guidelines are not intended to be all-inclusive, complete descriptions of safe practices, or to supplant or replace other additional precautionary measure to cover usual or unusual conditions or situations where common sense might otherwise dictate.

Accordingly,
