

LIMBO INSTRUCTIONS

ASSEMBLY

1. Select a level area to operate game with plenty of room to allow for a line to form.
2. Assemble framework, per sketch. (Be sure to tighten down fittings using the small bolts on them.)
3. Attach canvas to the framework using the Velcro straps.
4. Clip blocks to the tubing behind the canvas on either side. These blocks support the bamboo rod and are adjusted as the Limbo progresses.
5. If using game outdoors, it is strongly suggested that you use the stakes provided on either side of the bottom supports. Use sandbags on pavement. And in a breeze, use sandbags with the stakes.
6. Never fold up canvas wet. Always allow to dry thoroughly first.

SAFETY

1. Persons with back problems should not attempt this game.
2. Always use the stakes provided on either side of the bottom supports. Use sandbags on pavement. And in a breeze, use sandbags with the stakes.
3. **NEVER USE THE GAME IN STRONG WINDS OR LIGHTENING**
4. Use caution when setting up or taking down the game. Once the bolts are loosened the sections of tubing can come apart and fall down causing injury.

LIMBO PACKING LIST

DESCRIPTION	QTY.
